

Crime Incidents in Boston Weekends

Crime Incidents in Boston Weekdays

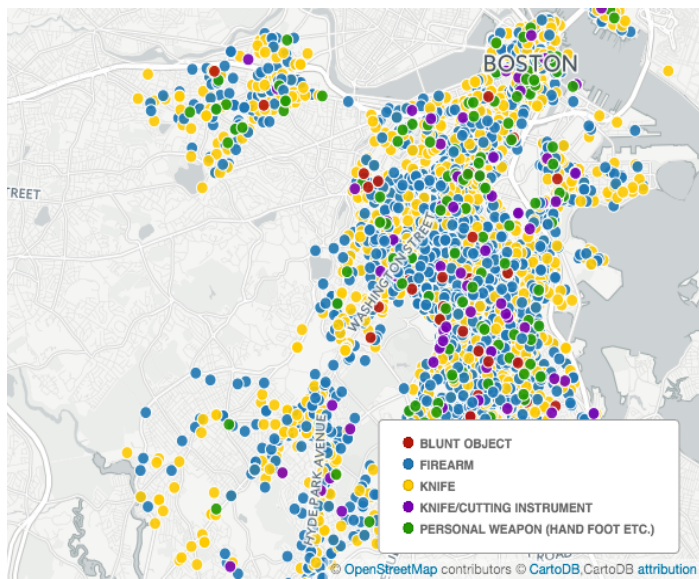

Average Incidents in Boston

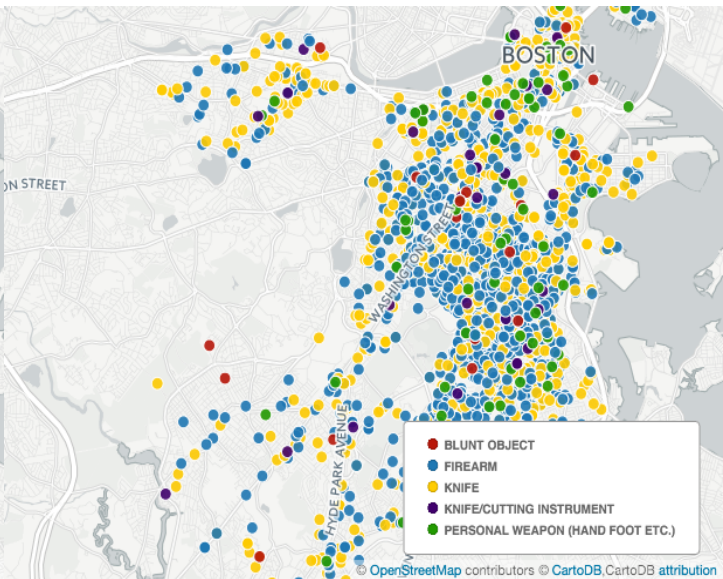

Above graph represents the Boston Crime Incidents from year 2012 – 2015. It seems that crime incidents are higher on the weekends than weekdays from the above images. Interestingly, Higher crime incidents seems to be happening around Tufts Medical Centre and Boston Common area which is the most crowded place in Boston.

Further we can see the average crime incidents in Boston on weekday and weekends.

Within the data it is good to know what the type of crime incidences is. In this graph I have removed the datapoints with None, Other, Unarmed to show the relevant crime type. I see Firearm incidences are much higher in Boston as compare to other categories. Well, I see a notable increase in Knife incidences on weekdays whereas Firearm incidences remain similar.
